Project Description:							
<p>The term of this grant is from October 1, 2004 – December 30, 2005. For the purposes of this grant, interpretation includes any exhibits, displays, kiosks, brochures, docent interpretive programs, ranger interpretive programs, and written materials on land, air, and water resources.</p> <p>All programs will target regional audiences from our city's most impacted urban areas. The attached grant agreement spells out the specific scope of services that will be provided, including:</p>							
<p>I. Interpretation of land, air, and water resources at Temescal Gateway Park, including written materials, docent interpretive programs, and ranger interpretive programs. These programs will directly relate to the Park's natural history and water resources.</p>							
<p>II. Interpretation of land, air, and water resources at Upper Las Virgenes Canyon Open Space Preserve. This program directly relates to the Park's rich natural resources. Programming will focus on interpretation of the site's endangered species, ecology, importance in the watershed, conservation, biodiversity, Mediterranean ecosystems, wildlife corridors, and fire ecology.</p>							
<p>III. Interpretation of land, air, and water resources at Mentryville. This program directly relates to the Park's unique geology and natural resources. Interpretation will focus on endangered species, ecology, watersheds, conservation, geology, biodiversity, Mediterranean ecosystems, wildlife corridors, and fire ecology.</p>							
<p>IV. Interpretation of land, air and water resources at Towsley Canyon. This program directly relates to the Park's rich natural resources. Interpretation will focus on endangered species, ecology, watersheds, conservation, geology, biodiversity, Mediterranean ecosystems, wildlife corridors, and fire ecology.</p>							

V. Interpretation of land, air, and water resources at Franklin Canyon Park. This program directly relates to the Park's water resources, including the Franklin Canyon Reservoir and the Heavenly Pond. Additionally, programs focus on natural resource conservation and the dynamics of urban/wildland interfaces
